# SAHARA MOTORS GROUP

The 2025 Mitsubishi L200 Sportero is powered by a robust 2.4-liter MIVEC intercooled turbocharged direct injection diesel engine, designated as the 4N16 HP. This advanced powerplant delivers a maximum output of 135 kW (181 horsepower) and an impressive torque of 430 Nm at 2,500 rpm. It is equipped with a modern common rail electronic fuel injection system and a built-in fuel heater, enhancing efficiency and reliability even in colder climates.

The exterior of the 2025 L200 Sportero exudes bold presence and premium touches. Lighting is fully LED-equipped, including daytime running lights, headlamps with auto-on functionality, fog lamps at both the front and rear, side turn lamps, high-mount stop lamp, and full rear combination lamps. Welcome and coming-home light features provide added visibility and a touch of sophistication. The vehicle rides on 18-inch stylish silver alloy wheels, fitted with 265/60 R18 tires, and includes an 18-inch steel spare wheel. A generous 75-liter fuel tank supports long-range travel.

Inside, the L200 Sportero offers a blend of rugged functionality and premium comfort. The front cabin features sport-style leather seats, with the driver's seat offering full power adjustments including sliding, reclining, and height control. Rear passengers enjoy a spacious leather low-back bench seat with a center armrest, integrated cup holders, and three head restraints for added comfort and safety. Modern convenience is enhanced with keyless entry, a one-touch engine start system, and a leather-wrapped three-spoke tilt and telescopic steering wheel with integrated control switches. A paddle shift system and cruise control further improve driver comfort and control during long drives. For security and convenience, the Sportero features speed-sensing automatic central door locking, a child safety lock system, and an impact-sensitive unlock mechanism. An engine immobilizer protects against theft, providing peace of mind whether parked in the city or off the beaten path. Occupant safety is further supported by front and rear 3-point seatbelts with ELR mechanisms and a 2-point lap belt for the rear center seat.
