# SAHARA MOTORS GROUP

The 2025 Toyota Hiace HR is built for both durability and practicality, featuring 16-inch steel wheels fitted with 235/65R16C tires for enhanced road grip and stability. The halogen headlamps with a headlamp levelling function ensure optimal visibility during night drives, while the high-mounted stop lamp enhances safety by increasing visibility to other drivers on the road. One of the standout safety features is the emergency glass roof exit, providing an additional escape route in case of emergencies, which is particularly useful for passenger transport and shuttle services.

The 13-seater capacity, including the driver, makes this model perfect for businesses that require a reliable transport vehicle for passengers. The fabric seats ensure durability and comfort, while the manual adjustable driver seat provides flexibility for drivers of different heights. The 4.2-inch multi-information display allows for easy access to essential vehicle data, while the steering wheel controls provide convenience for audio and system adjustments. The manual air conditioning system with rear blower control ensures that all passengers enjoy a comfortable journey, and the rear air conditioning vents distribute airflow evenly throughout the cabin. For additional convenience, the Hiace HR includes two 12-volt power sockets in the front, perfect for charging devices on the go.

For entertainment and connectivity, the 8-inch display audio touchscreen supports Apple CarPlay, allowing passengers and drivers to integrate their smartphones seamlessly for navigation, calls, and music streaming. The Digital Audio Broadcasting (DAB) radio enhances audio clarity, while the USB-A port provides easy access to external media. The 2-speaker system ensures clear audio for both driver and passengers. The 2025 Toyota Hiace HR V6 3.5L Petrol 13-Seater Manual Transmission is a versatile, powerful, and reliable vehicle designed for businesses, tour operators, and transport services. With its spacious interior, robust performance, and comprehensive safety features, it stands out as a top choice for those who need a durable and efficient passenger vehicle.
